

REALITY CLASH

AR Combat Game

The worlds first AR mobile combat game

What is Reality Clash ?

- Reality Clash is an exciting and innovative augmented reality FPS mobile combat game available on IOS and Android, which is also free to play!
- Gamers enter the AR Portal to play in the virtual battlefield where their movement, reactions and strategy are crucial to success.

Reality Clash Overview

- The world's first fully Augmented Reality mobile combat game
- No mobile attachments or add-ons required for play
- Incredible AR combat animations
- Move in the real world and your avatar copies your moves in the game in real time
- Customise your weapons with skins and accessories
- Battle for control of the AR Battle Field using advanced digital weapons from the Armoury
- Experience a completely new form of AR gameplay

Reality Clash Overview

- Rated 4.6 / 5 in Apple App Store
- Connected players battle it out against each other in 1 on 1 virtual combat
- Uses the latest AR Core and AR Kit from Google and Apple
- Maps augmented reality to the real world
- Pushing the boundaries of AR, bringing immersive vision to life
- Ideal platform to show off high speed mobile network capability
- Potential partnership opportunities for Network Operator in game advertising / branding.
- Non intrusive AR adverts built into the battle field

New App Store Reviews

The game is perfect, it has no ads, if you don't want to advance time in boxes, it's a great game, I just think the bad thing is that you can't change the skin's color, they're doing it well, this game has a very good future

★★★★★ **UPDATED**

this is the first shooter app ive seen that can be called a true augmented reality game.. the game has real potential, im excited to see wh at they add next.. finally an app that can be considered augmented reality without stretching the term..

I give it 4 * because I just started it and I really like it. The ones mapped by AR work well but it lacks more color and is quite stable in connection. It would be good if they put more diversity of maps and that more people play because this game has a good future. I have already recommended it to my friends 🍌

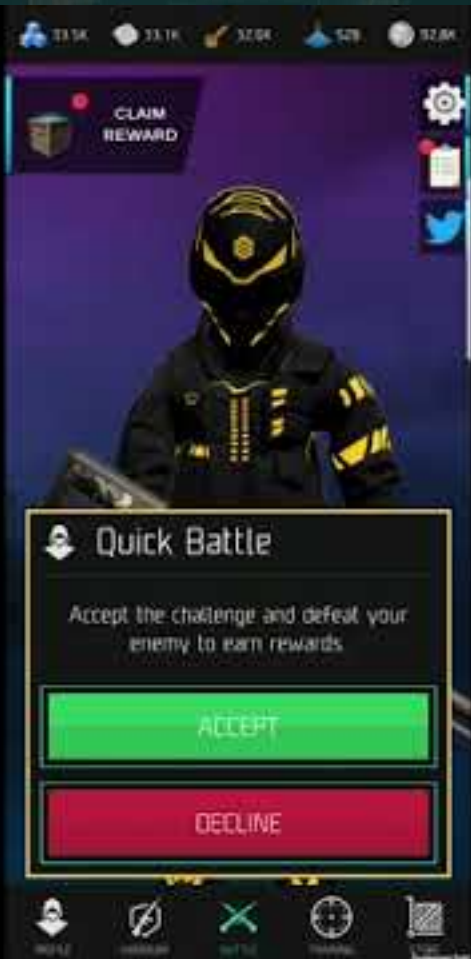

Great game ★★★★★
by markomor – Nov 13, 2020

Amazing game really good would recommend for anyone it's amazing and it changed my life
